I recently attended a presentation on the crop circle phenomenon put on by two locals who became interested and conducted their own research by travelling to England, seeing the circles themselves and talking to researchers there. They also obtained many amazing photographs which formed the core of the presentaion.
Among the things they said:

- 1) Concerning Doug and Dave -- The original story only claimed they had faked about 200 circles, not all of them. The news service that supplied the story is a fake and the town given is supposedly used by MI5 to plant disinformation stories. There was also supposedly a meeting of the National Security Council on the circles. Nobody knows what went on at the meeting.
Yeah, I know, there's a conspiracy behind every rock - I'm just reporting:-)
- 2a) There's a loss of phototropism in the plants inside a real circle.

Actually she (Kit) said last year the plants would stay bent over and continue to grow whereas this year the original stem would stay bent but a new shoot would grow skyward. Nevertheless it seems it should be a simple matter to separate the fakes from the "real" circles by merely observing them over some time interval to see if the stems try to right themselves or not. She said this was in fact observed.

- 2b) The seed heads of the plants inside the circles don't contain any seeds!!
- 3) Some sort of crystallographic analysis was done on cross-sections of plants taken from both inside & outside a circle. They displayed slides which showed very marked differences. exactly what was done or how, or how many samples were examined, etc. was not mentioned and I don't think they knew.
Interestingly, she said that while there were many physical scientists over there weren't any biologists involved. It would seem to me that biological analysis of the plants could be very important.
- 4) This past summer, Japanese researchers cordoned off a field with burglar detection equipment over night. The next morning when the fog lifted there was a "circle" in the field. Infrared detectors didn't detect any bodies in the field.
- 5) They had a slide of one pictogram which was supposedly verified as being a perfect Mandelbrot set. I don't know anything about Mandelbrot sets but one gentleman in the audience did and was very impressed.

I must say I take all this with a very large grain of salt, but nevertheless found the photographic evidence to be quite impressive. If hoaxers are doing it I take my hat off to them.

For those interested and in the Colorado area:

MICAP (Multi-national Investigations Cooperative on Aerial Phenomena) will host Stanton T. Friedman, a leading nuclear physicist and UFO lecturer, for two conferences scheduled for Sunday, October 27, 1991, at the Glen Miller East Ballroom at CU in Boulder starting at 7:00 P.M., and October 28, 1991, at the Lindsey Auditorium at DU in Denver starting at 8:00 P.M.

As many of you know, Stan is considered to be very well informed on various matters concerning UFO research. He has been featured on numerous national television programs, the latest on the Ron Reagan show.

If you wish further information, contact me voice at 303-431-8796, or email me at mcorbin@scicom.alphacdc.com.

The Los Angeles Police Commission, in an effort to reduce the fraud perpetrated on the public (to the tune of several million dollars a year in Los Angeles) by crooks using soothsaying as a front, has recommended to the L.A. City Council that the city charge a \$450 license fee for soothsayers, so that they can be registered and regulated.

The Police Commision report notes that one difficulty in the licensing is that it is not possible to tell "true psychics from fake psychics".

Hi Jim:

I have both taped conversations that would interest you. I have the Art Bell program with John and the interview with George Green. Without too much delay I will get them to you. I would like any information you might share with me on the Mount Shasta report ofn UFOs that was reported just a few days ago. I heard a reference to this incident last night Sept 27th. on the Art Bell talk show. Either the report was made during the first hour of his program that is not carried on KTAR or that was the half-hour or so that I decided to sleep.

I did talk to Chuck Christian and gave him the information that he wanted. I hope that you have heard from him by now. If not I'm sure you will in the near future.

Am driving myself crazy doing some (lots) of comparative records and am going nuts. (More than usual, anyway.) Have finished the first volume of my first project and preparing to start the second one.

The second prediction by Green, that the Mideast controversy would erupt again began Thursday the day after he did hit exactly the earthquake on the 17th. He did err in the intensisy of the quake. He thought it would be between 8 and 10 on the SCALE. It was only 5.1.

Interesting though. Continuing to monitor and see what else I can find. Tried the shortwave he said he was active in discussions with his alien friend but have come up with blanks so far.

Still its interesting!

Tell Mary Hi, and best regards,

Deane Ward (Norma) on radio. It creates less problems that way.

> want to post a general info message on the boards so people will know
> what MICAP is. (One thought it was a military thing!)

Well, it is a bit early for an announcement network-wide, but here goes...

MICAP is an acronym for the Multi-national Investigations Cooperative on Aerial Phenomena. It was founded in April of this year to address the growing need for objective, scientific study of the UFO enigma. It was fashioned in a similar fashion after the old NICAP (National Investigative Committee on Aerial Phenomena) which was a well-known group headed by the late Major Donald Keyhoe. Keyhoe's ambitions were not fully realized because of a series of events that took place within his organization. MICAP will organize a global

effort at focused research, the establishment of approved scientific and investigative standards, among other things, which will bring about a cooperative among the various existing, reecognized groups. We have solicited the cooperation of a number of groups and will be making a formal announcement in the near future.

The following is the report on Dr. Scott Corder, whom we featured in our International Predictions Registry some time ago. Keep in mind that ParaNet heavily disclaimed this material from the start as our investigation into this matter yielded considerable unreliable information. It is posted for your information only.

(C) 1991 ParaNet(sm) Information Service. All Rights Reserved.

ParaNet File Number: 00117

DATE OF UPLOAD: June 30, 1989
ORIGIN OF UPLOAD: ParaNet Alpha
CONTRIBUTED BY: Michael Corbin and Jim Speiser
=====

By Michael Corbin
ParaNet Director

DENVER, CO--Recently ParaNet placed a file in it's News Library concerning Dr. Scott Corder and his on going battle with the medical authorities in the state of Kansas over his 'strange beliefs' about UFOs. According to the article (31789KS.UFO), Dr. Corder came to fame after claiming to be in contact with an 'Amorcan' named 'Peter' who claims to represent the 'good side of the force.' This relationship between Dr. Corder and Peter has yielded some highly controversial material, which you will see, has been instrumental in his medical license being revoked and his career as a medical doctor stopped short. What little background that we have on this thus far seems to indicate that Dr. Corder and a confident, Donna Butts, have had some prophetic and apocalyptic revelations told to them by this entity known as

the Apostle Peter.

I recently interviewed Dr. Corder by telephone at his home and he told me what has led up to this point. What I found particularly interesting was the story that he told me about how he came to the attention of the Medical Review Board for the State of Kansas. Dr. Corder was an investigator for CUFOS and was contacted by them to investigate Donna Butts' story of having alien contact. Upon contacting Ms. Butts, Dr. Corder began to become involved in what was taking place between Ms. Butts and 'Peter.' He began to become concerned when he was told that President Bush could be in danger of an assassination attempt in late 89. He was instructed by 'Peter' to send this information to the White House and he was shortly contacted by the FBI and investigated for providing this information. During the course of the investigation, the FBI notified the Kansas State Medical Board and Dr. Corder was ordered to undergo psychiatric examination in Topeka, Kansas immediately or his license to practice medicine would be revoked without further notice. Dr. Corder did attend one evaluation and was ordered to attend a second one. He refused at this point citing that it was a violation of his privacy. Shortly after that his license to practice medicine was revoked. I asked him if he had had any complaints of malpractice and he told me no. In response to all of the publicity that Dr. Corder had been receiving, People Magazine contacted him about doing a story on his contact. Dr. Corder agreed, however shortly after that, People Magazine withdrew citing that they had been contacted by government agents and told to "shelve the story." At the time of this writing, this has not been verified, but we will check this out. Dr. Corder sounded very sincere, however the nature of the revelations are very apocalyptic and remind one of Biblical prophecy. A full story on this case will be provided following the investigation by ParaNet.

What follows are a list of predictions that were sent to ParaNet concerning the future according to 'Peter.' Please note the UFO and UFO related predictions that are made and how they relate to the environmental and economic predictions. Before reading this material, it is suggested that you familiarize yourself with the article mentioned above so that you may get a better background about Dr. Corder. ParaNet is also conducting an investigation into the nature and content of the material. At this time, we are rating this as highly unreliable and unsubstantiated and wish our readers to understand that until the investigation is complete, this material must be viewed with a high level of skepticism and caution. Again, the nature of this material is highly controversial and ParaNet does not make any warranties about it's truth. We will continue to update this material as it becomes available. Your comments are welcomed.

Current Prophecies: written on June 11, 89

1989

1. Oklahoma earthquake (4.0 to 6.0) soon, probably before Aug. 89.
2. New leader of Iran, new [Iattola, ibid.], is worse than first. Small war breaks out in Persian Gulf, USA is involved.
3. Probable attempt on President's life in August. 89, if he is in the southeastern USA during that month.
4. Huge earthquake located on Kansas/Missouri stateline now to late Aug. 89.
5. Ivan comes to USA in 89 and easing into power in Russia in late 89. Ivan is the False Prophet. [ed. note: We are attempting to find out who 'Ivan' is.]
6. Dormant volcano erupts in Hawaii in 89.
7. Hurricane in Gulf of Mexico in 89, UNPARALLELED!
8. Events to bring the Bush Administration down in late 89. Possible nuclear warhead? Nicaragua involvement?
9. Limited nuclear exchange between now and March, 1991.
10. Government in trouble with evil ET's. Comes to us for help in 89.

89 and/or 90

11. Giant earthquake in China. Late 89 or early 90.
12. New oil reserves in US in 89 and 90.
- 12a. Space shuttle of USA is intercepted and retained by UFO in 89 or 90. Released after several hours. Causes panic. All defense locations shut down during interception. Same thing happens with Russia later the same year.

1990

13. Bob Dole, of Russell, Ks., becomes the next, greatest and last president of the United States. Temporary "white house" set up in Russell. Russell bombed and Dole escapes.
14. Governments acknowledge UFOs in late 89 or early 90.
15. Open contact with governments by Amorcans, (The Good ET's or Angels).
16. Earthquake in California--unbelievable!
17. Contact with government by Creasians, the evil ET's or Angels, is revealed.
18. Stock market crash, again.
19. New virus killer reaches USA. Hideous sores with most people susceptible.
20. Cures for arthritis, cancer, M.S. very probable.
- 20a. Nuclear plants in Russia and USA experience nearly simultaneous explosions.
21. More fires, earthquakes, volcanic eruptions and devastating weather patterns [excalate, ibid.] by two witnesses for God.
22. Ozone becomes worse and by 91 temp. rise of 10 to 30 degrees around the world.
23. Russia closing seaports and war begins.

1990 to 91

- 24. Pollution in streams and rivers and finally oceans, so bad that sea life explodes, turning water to blood.
- 25. Food shortages and radiation sickness in USA. Result of drought and limited nuclear strike between Nicaragua and USA.
- 26. True Anti-Christ arising.
- 27. Rioting and panic, caused by stock markets, droughts, unemployment, food shortages, and UFOs.
- 28. Land masses, (small islands), simply disappearing. 90-93.

1991

- 29. People killing and burning those with new virus. At first, quarantined, then destroyed.
- 30. Easing out of fossil fuel.
- 31. Floods begin from melting icebergs, into 1992, from increase in temperatures around the world.

1992

- 32. New economy and temporary prosperity set up by Anti-Christ when he takes power.
- 33. Creasians, the Darkside Et's or evil angels, activating subconscious programming of subjects, causing insanity and instantaneous combustion.
- 34. S.D.I. deployed in defense of world against UFOs, but ineffective even with countries working together.

Note: These prophecies were received by Donna between about March, 87, to February, 88.

END

"Wallace and the men with him walked around the object and noticed an interesting effect. Their own shadows were cast onto the object, probably by the bright "light-alls" in the field. Not only did their shadows bend upwards at the head, but as they walked and the stopped, the shadows would appear to advance one pace more and then stop."

-Clear Intent by Lawrence Fawcett and Barry Greenwood
page 216 about the Rendlesham Forest case.

(I guess my memory fabricated the half second delay - but it does sound like some sort of delay!)

From: wrs.com!davidj
Subject: Richard Hoagland's Face on Mars
Date: 1 Oct 91 05:32:19 GMT

From: davidj@wrs.com (David Jones)

* I share this with you in the hopes that the more people that know the *
* truth, that the truth will be known by more people. *

I recently attended the Whole Life Expo in San Jose. Richard Hoagland took part in two talks and one panel discussion, which he moderated. He indicated that he was now revealing information that he had never before revealed. I share with you my notes. I present this with the knowledge that in order to fully understand this material; in order to be able to corroborate or disprove what he claims, you must first review the evidence that he presents. This which I state should be obvious but, as I have woefully discovered, many readers of this will jump to conclusions before doing their homework. I apologize for any redundancy and pray you will forgive my incompleteness. Any discrepancies are most likely my misunderstanding rather than Richard's information.

There is a new paradigm of man's origins currently evolving in our consciousness on this planet. Up until now, we have had 2 choices: Creationism (whatever the Bible says has to be true) and Evolution (Darwinism: we evolved out of some primordial soup). This new paradigm, as the Sumerians of Sitchin indicated, is that we came from the Heavens (meaning other planets in other star systems), a sort of extra-galactic Darwinism. Richard used phrases like: '... mitochondrial DNA scientists ...' " and "... self-reflective dimensional expansion' to describe this idea. Using the photographs from the Mars mission, with 150 foot per pixel resolution, and using techno-hacker wizardry, he shows that we are in the process of matriculating into racial maturity. He has created a gorgeous video (currently available) created from the stills of the Mars mission and made into three dimensional fly-bys of the face, the pyramids and the city. He quotes Zechariah Sitchin 'someone is meddling ...'.

In order to completely realize the possible truth of the material presented in his discussions, you should understand tetrahedral geometry and it's associated simple trigonometry. Tetrahedral geometry only works with a 360 degree system with 60 minutes of arc and 60 seconds per minute. In addition, 12 is a fundamental aspect of this system. Richard Hoagland used two universal constants and their ratio, in order to substantiate his claims.

These two numbers are pi (3.14) and e, the base of natural logarithms (2.72), and the resulting ratio: $e/\pi \approx 0.865$.

For instance. if you take the slope of the Great Pyramid in Egypt, and divide it by the 60 degrees, it's top angle, you get 0.865. This is replicated for the pyramids on Mars. Through tetrahedral geometry, he shows how we are converging on an Universal Geometry. Tetrahedral geometry is what we have in a 360 degree circle and that which gives us 24 hours in a day, both with 60 minutes and 60 seconds. Whoever built the Egyptian pyramid, had the same knowledge as whoever it was that built the face and the city on Mars. The Martians used a 360 degree system. Sitchin shows that the ancient Sumerians (c. 8500 BC) used the 360 degree system and counted minutes and degrees of arc by 60's, just like the Martians. The Martian year is equivalent to 687 Earth days. The Fibonacci spiral is a tetrahedral mathematic. Follow the numbers and follow the logic.....

The Egyptian Pyramids are made of calcium carbonate which has an internal structure that is exactly like the structure of the pyramid (in Egypt) itself. There are 20,000 books written on the Egyptian pyramids. It is located 5' 30' of direct North. This is caused by tektonic plate movements (otherwise it would be direct north). The plate that it sits on moves an approximate maximum of 1' arc every 45,000 years. This means that it would take about 247,000 years to get to it's present position. The mean arc location is 4' which gives about 180,000 years or, an estimation that the pyramids in Egypt were REALLY build about 214,000 years ago (give or take). The pyramids (in Egypt) were weathered by water, not wind. This is an intentional misinterpretation by scholars so as not to get into trouble with their colleagues and not challenge western religions. The Sphinx dates to a time to before when the Sahara was desert.

The land forms found on Mars are NOT those done by Nature. The angles formed by the pyramids are impossible for nature to create. There are too many variations on the e/π constant. Even the latitude on Mars where the city/face/pyramid are found is a function of e/π . He spent several hours creating an exquisite mathematical trail showing that the pyramid on Mars, the pyramid at Gizeh and, co-equivalently, the Sphinx in Egypt, are all more than 200,000 years old. More specifically, about 217,000 +/- 15,000 years. It is impossible for me to go into all the details, but he had people from 3 different professions, all working independently and unknown to the others, who had all come to the same conclusions in regards to the age of the Egyptian pyramids. The D & M pyramid (on Mars) is self-referential (it knows where it is). It is located at 30 degree North latitude just like the Egyptian pyramid on Earth..

Mars has two carbon moons. The planet Mars does not contain this carbon. The moons appear to be asteroids that the Martians, using technology that is available to us today, moved into Martian orbit and, apparently, to mine. The two moons are in perfect circular orbits around Mars. Phobos is spiraling inward toward Mars. The density of Phobos is 1.95 which means that 30% is missing, or hollowed out, or mined. Richard believes that the Soviets covered up the truth of this by saying that it was a UFO that grabbed up their spacecraft and by so doing, knew that the mainstream press would not touch the story. The Russians probably have close up photos of extraterrestrial artifacts (a Martain monkey wrench?) and Marina Popovich went around the world

and spread false rumors to put the nail in the coffin in order to cover-up the Truth. The Phobos orbit is 20 Km off true circular, due to it's decaying orbit. If it were circular to begin with, it would have taken 217,000 years to cause it to be off course at it's present rate. Something disruptive happened on Mars at that time (217,000 years ago). Something attacked the city there. The Egyptian word for Shinx means, the ending, inferring an ending of one thing (Martain civilization) -- a beginning somewhere else (planet Earth).

He speaks of the Nephelim, 'Those who were cast down', or "Giants" and by so indicating he infers that there was a war of some sort on Mars about about 217,000 years ago and that they `escaped' to planet Earth.

The ratio of the Earth to it's moon is .272. The moon takes 27.32 (Earth) days to orbit the Earth. It should be 27.2. If we interpolate the difference and how much the Earth's moon is moving away, we get 200,000 years ago for our moon to be the 27.2 he speaks of. Was OUR moon put there by extraterrestrials that escaped to this planet to mine? Will we find extraterrestrial artifacts on our own moon? (Maybe we already have?)

Carl Sagan and Richard Hoagland used to be friends. In public, Sagan says that this information is nonsense, but in private, he says something quite different.

Richard indicated that he will read anything that will bring him even 1 data point closer to the Truth.

Original cassette tapes of the above may be obtained from the Whole Life Expo tape people (email me for the number).

Video tapes of the above presentations, and more information on this may be obtained from Richard Hoagland's organization, The Mars Mission (they publish a quarterly journal entitled Martian Horizons) from:

I tend to avoid tabloid television, so I didn't see that story.

It's odd that Scott Corder wouldn't say where they were, but then the story came out in the newspapers that they were going to Israel.

To: Sheldon Wernikoff: You and Keith referred to David Pritchard's paper on the Price implant case. You maybe should write David directly about this case; I don't know his email address. Write to him at the Dept. of Physics, MIT, Cambridge, MA 02139. Mention my name and Paranet. I could also send you a copy of the TREAT report if you give me your address, but probably it is best to get it from him. His opinion which is also stated in the report is that the penile implant can be explained as earthly material. One point is that there is a whole zoo of exotic manmade and natural materials being discovered or revealed when studied with the new ultra-magnification instruments which will make it more difficult to 'prove' that alleged implants are alien. It seems like the more new kinds of 'evidence' about the UFO phenomenon we uncover (like implants and crop circles) the harder it becomes to prove an alien cause.

I look forward to getting Jacobs book. I know he had a hard time getting a publisher for it. I don't believe Dave has the time or inclination to run the Abduction echo. Perhaps Mike should consider getting someone else to run it.

Dave Webb

From: pgwres01@ucs.usl.edu (Fraering Philip G)

Might it be possible that one of you people could put the pictures in electronic format and post?

Phil Fraering
